The dates are set for the leading event on the promotion of a secure, clean and efficient energy for Europe. The **EU Sustainable Energy Week (EUSEW)** will take place from **15 to 19 June 2015** in Brussels and across Europe. The European Commission invites you to be part of it, organising an Energy Day, applying to the Sustainable Energy Europe Awards or attending one of the hundreds of events to take place during the entire month of June 2015.

The 2015 edition of **the Sustainable Energy Europe Awards** is now open. If you are proud of your company’s results in reducing its carbon footprint or if your city deserves further recognition for its achievements in sustainable energy, then you are invited to take part. This year projects can compete in **three categories**:

1. Renewable energy
2. Energy efficiency
3. Cities, communities and regions

Nominees and winners will be invited to the Awards ceremony that will take place in Brussels during the EU Sustainable Energy Week, giving them great visibility at the European level. Articles and videos will present the winning projects as innovation leaders and role models for sustainable energy. We strongly encourage you to submit an early description to take full advantage of the Secretariat’s personalised feedback. Check the [Awards Eligibility and Assessment Criteria](#). Click here to [apply for the Awards 2015](#).

**First evaluation deadline is January 31. Final deadline to apply is 28 February 2015.**
Discover the 2014 Award winners on EUSEW TV

- **SUPERHOMES** from National Energy Foundation (United Kingdom)
- **Biogas production for regional independence** from MethaPOWER (Austria)
- Energy University from Schneider Electric (France)
- Brogarden from AB Alingsashem (Sweden)
- **UPM BioVerno** from UPM BioFuels (Finland)

**Energy Days**

Last year over 1000 Energy Days took place in Europe and beyond. This year, Energy Days can take place during the entire month of June. To discover how to become an Energy Day organiser, please click here.
